

Connected Vehicle **Data**  
**Analytics Platform** and  
Solutions

# What We Do

- We are focused on **Connected Vehicle Data Analytics Platform and Solutions**
- We build cutting-edge **SaaS Applications** in areas of **Connected Car, Fleet Management, Route Planning, Insurance Telematics and Remote Diagnostics**
- We have **customers and partners** in emerging markets across **auto and mobility segments**

# Making Connected Cars Work for Your Business

- AutoWiz Connected Vehicle Data Analytics Apps
- Enables disruptive business models
- New revenue streams
- Efficiencies for your business

## Works for

### OEMs

Connected Car App On-road car performance  
Proactive diagnostics

### Dealers

Used Car Inspection  
Post Sales Warranty

### Fleets

360 degree view of Fleet operations

### Workshops

Used Car Inspection  
Post Sales Warranty

### Insurance

Usage based Insurance  
Crash Detection and  
Roadside Assistance

### Logistics

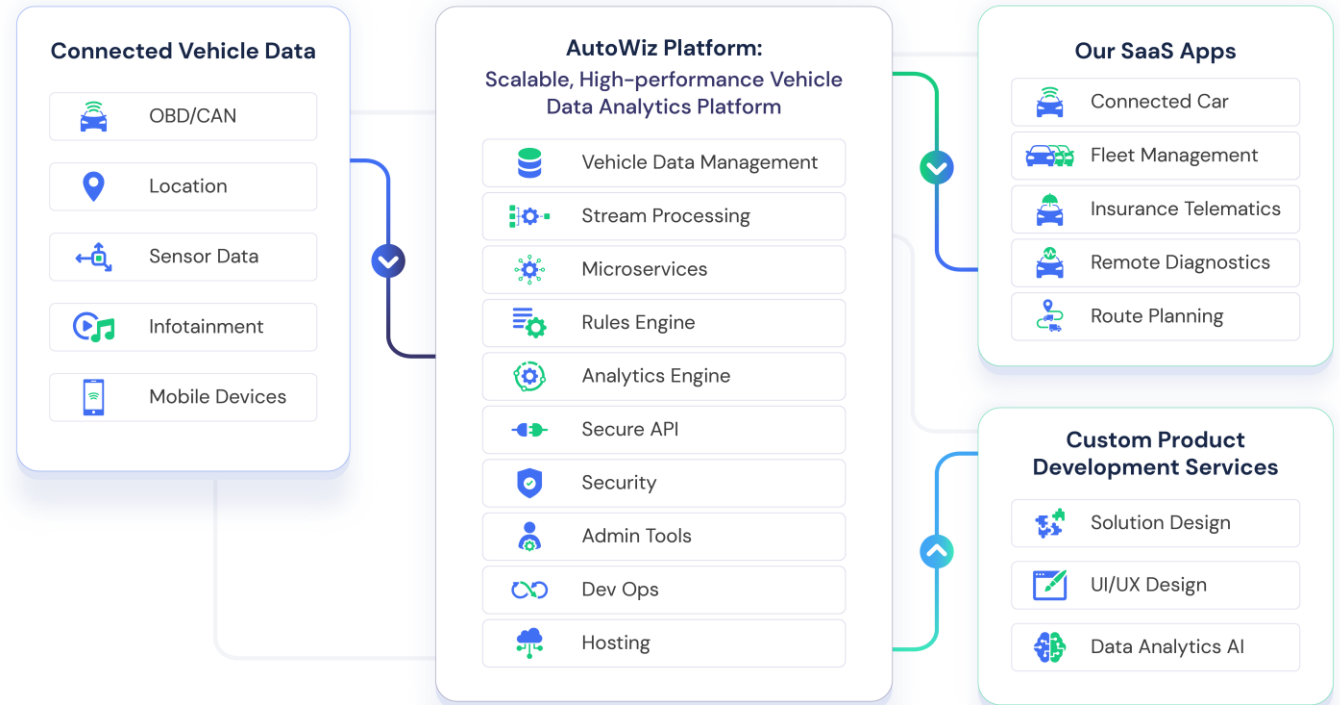

Route Optimization,  
Planning and Tracking

# Our Products and Technology

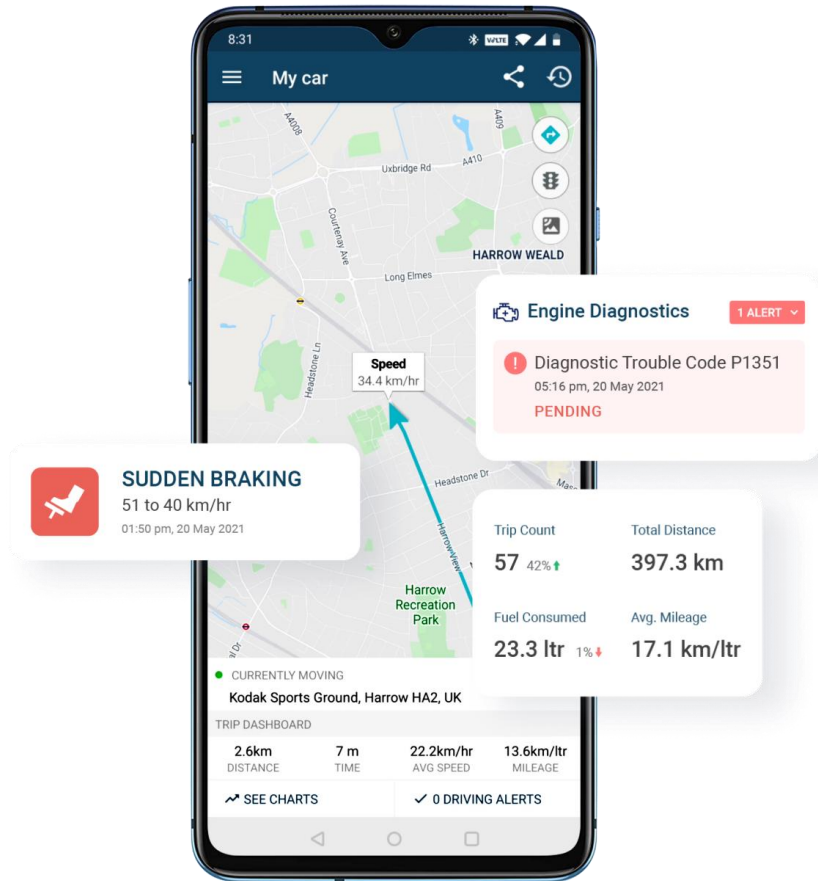

# AutoWiz Connected Auto Data Analytics Platform

- **Scalable**, can support Millions of concurrent Connected Vehicles and Owners
- Built-in rich **Business Logic, Data Analytics** support for Connected Vehicle use cases
- Comprehensive **API support** for integration into Enterprise Apps
- Integrated with variety of **Connected Car Devices**
- Backed by our **Custom Development Services** for customer specific enhancements

# Our Platform Powers Our After-market Connected Car Solution

Across **India, UK and Malaysia**

**Connected Customers**  
across Car Makes

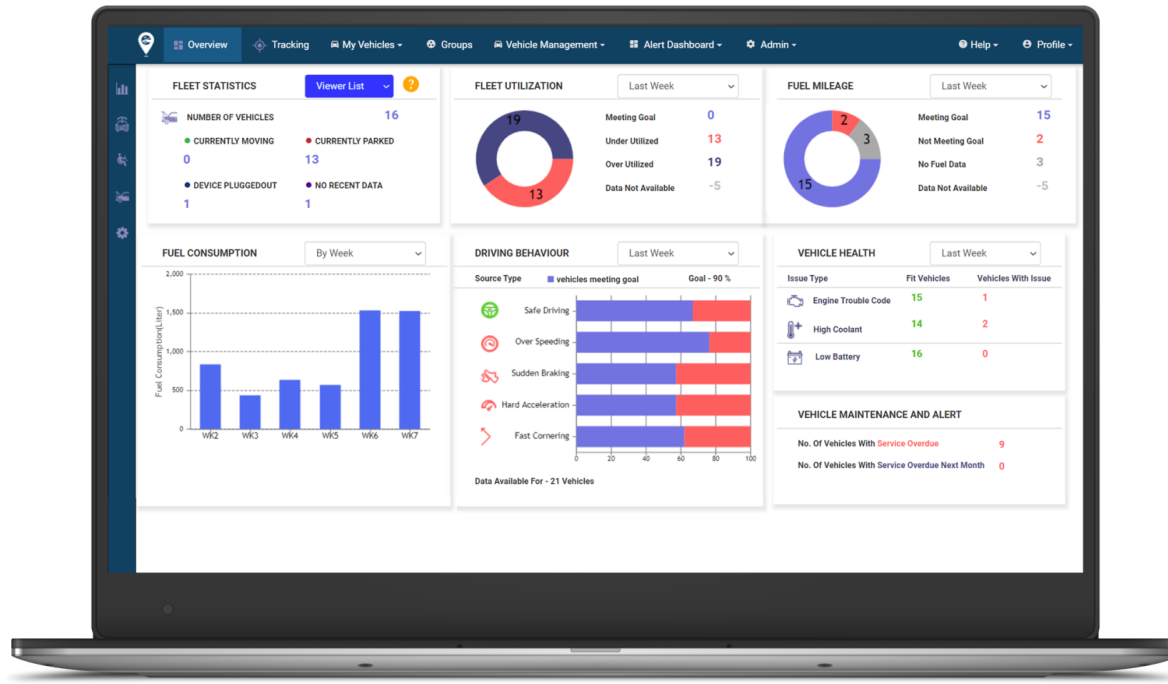

**100 Million km of**  
Driving Data

**2 Billion**  
ECU Data Points

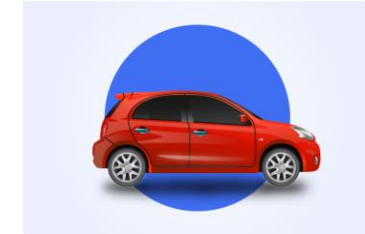

# Feature-rich Fleet Management Solution

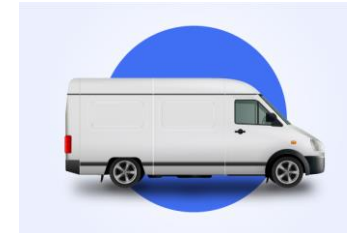

## Works for

Taxi, Car Rental

Shared Mobility

Last Mile Logistics

Trucking

## Fleet Tracking

Best in Class Live GPS Tracking and Location Notifications

## Ensure Safe Driving

Monitor rash driving behavior and reduce accident risk

## Control Cost of Operations

Monitor fuel usage, fleet health and wasteful driving

## Improve Efficiency

Actionable insights to increase utilization and profitability

# Route Planning, Optimization and Tracking

## Optimize Routes

Automatically generate schedules and routes optimized for Resources, Cost, Travel Distance

## Crew App for Drivers

App to view latest schedule, navigate and update status of tasks. App based location tracking

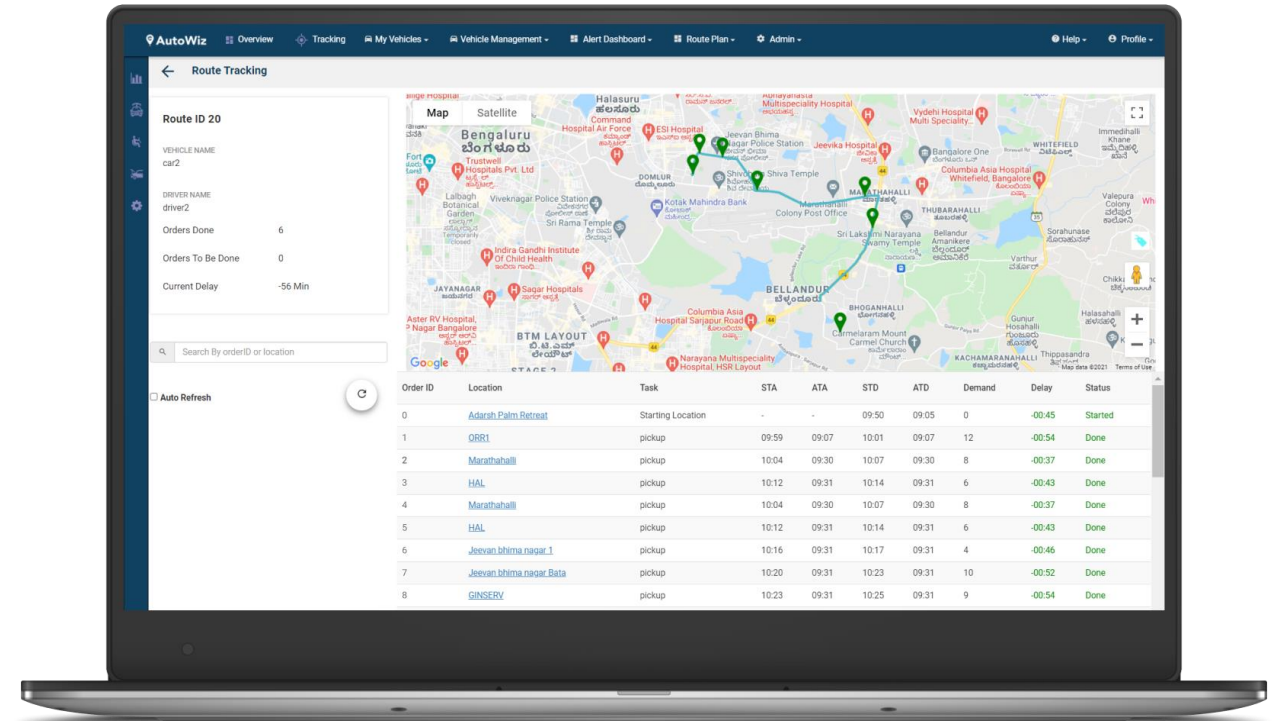

## With Real life constraints

Set constraints on Vehicle capacities, Customer time windows, Field crew working hours and more

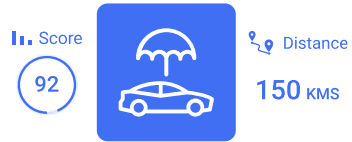

## Track in Fleet Dashboard

See where your vehicles and drivers are at real time. See progress of all routes and tasks

# Our Versatile Insurance Telematics Solutions

## Usage Based Insurance

For Pay-how-you-Drive and Pay-as-you-drive UBI Business Models

## Versatile Technology

Choose based on your use case and budget – Smartphone only or with OBD Device

## Add-On Features

Crash Detection, Live Tracking, Car health monitoring and diagnostics

## Fast time to market

App SDKs and APIs enable you to customize, integrate and launch quickly

Over Speeding

Sudden Braking

Hard Acceleration

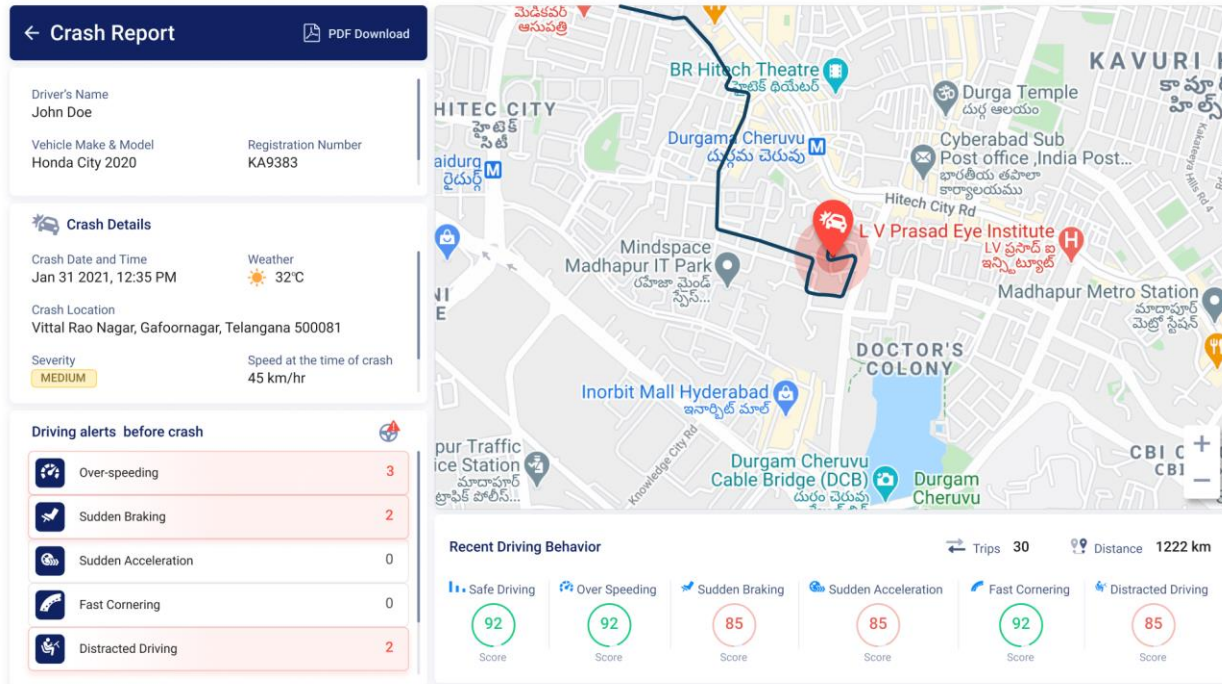

Fast Cornering

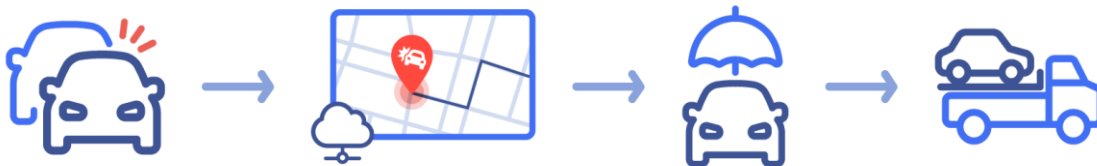

Distracted Driving

# Automatic Crash Detection and Reporting

- Provide **emergency assistance**
- **Data-driven Crash Report** for Claims Intelligence
- Access **Key Details** of the Crash to **accurately assess loss** and context of the crash

# Vehicle Maintenance and Diagnostics Insights from Vehicle Data

100 Million km of  
Driving Data

2 Billion  
ECU Data Points

3 Billion Location, Driving  
Behavior Events

1 Million Vehicle  
Health Alerts

## Descriptive Analytics

- Scheduled **Maintenance Tracking**
- **Real time Car Health Alerts** : Low Battery, Engine heating, Engine Fault codes
- Comprehensive **Maintenance and Rating Report**: Relative Performance, Fuel MPG, Engine Diagnostics, Battery, etc.

## Predictive Analytics

- **Anomaly Detection** to detect certain component issues
- Remaining Useful **Life prediction for key parts/consumables**
- **Driving Behavior Impact** on Fuel Economy

Connected Workshops

Warranty Support,  
Quality Improvement

Used Car Valuation,  
Extended Warranty
